

LÁZARO MANUEL CAMPOS OLIVA

Havana, Cuba · [linkedin.com/in/lázaro-campos](https://www.linkedin.com/in/lázaro-campos) · +53 56953805 · lazaromanuel65@gmail.com

Backend Developer with over two years of professional experience developing enterprise applications using Java and Spring Boot, as well as Node.js with NestJS and Express. Specialized in the design and development of REST APIs, implementation of security and authentication mechanisms, and working with scalable and maintainable architectures. Experienced in collaborative environments using agile methodologies, applying best practices in development, version control, and continuous software improvement.

WORK EXPERIENCE

Xetid Junior Backend Developer	Havana, Cuba Oct 2023 - Present
• Development and maintenance of REST APIs for enterprise applications using Java and Spring Boot. • Implementation of security and access control using Spring Security, JWT-based authentication, and integration with WSO2 Identity Server for identity management. • Design and management of the persistence layer using JPA/Hibernate, working with PostgreSQL and MySQL databases. • Building controllers and backend services using Spring MVC and Spring WebFlux, applying reactive programming to specific services. • Containerizing applications using Docker for development and deployment environments. • Using Git and GitLab for version control, branch management, code review, and collaborative workflows. • Active collaboration in multidisciplinary teams under Agile methodologies (SCRUM), participating in the analysis of technical and functional requirements.	

EDUCATION

Camilo Cienfuegos de Capdevila Military School	Havana, Cuba 2020 - 2022
Celia's Presence Pre-University Institute	Havana, Cuba 2023

COMPLEMENTARY TRAINING

- Self-directed training in programming and software development, through free online courses, technical documentation and specialized educational resources.
- Continuous learning through digital platforms and online technical content, focused on programming fundamentals, backend development, and good software engineering practices.

SKILLS

- **Languages:** Java, TypeScript, JavaScript, HTML/CSS.
- **Frameworks:** Spring Boot, Spring MVC, Spring WebFlux, NestJS, Express, Node.js.
- **Security and Authentication:** Spring Security, JWT, WSO2 Identity Server.
- **Persistence and Databases:** JPA/Hibernate, Prisma, PostgreSQL, MySQL, MongoDB, Redis.
- **DevOps and Tools:** Docker, Git, GitLab, GitHub, Maven, Gradle, Postman, Linux.
- **Methodologies:** Agile Methodologies (SCRUM).
- **Tongues:** Spanish (native), English (B1).
